

REPUBLIC OF NAURU

**NATIONAL SUSTAINABLE DEVELOPMENT STRATEGY
2005 - 2025**

AS REVISED 2009

October 2009

Agriculture**Goal: Increased level of domestic agricultural production aimed at addressing food security and healthy livelihoods**

Key Performance Indicators: Value of agricultural and livestock food imports
Value of domestic agricultural and livestock production
Proportion of land area covered by forest (MDG)

Strategies	Short-term Milestones 2012	Medium-term Milestones 2015	Long-term Milestones 2025	Responsibility
Develop local food and agricultural production initiatives such as kitchen gardens, fruit tree planting and root cropping	At least one nursery established and successfully functional providing seedlings and technical assistance to individual and community farmers (ROC) 10 percent of HH have successfully operating kitchen gardens with water storage supported (FAO)	30 percent of average Nauruan diet sourced from locally produced food (fruit trees e.g. breadfruit, banana, mango, papaw and vegetables and root crops) 30% of HH successfully growing and producing root crops (sweet potato, cassava and taro) supported through SPC DSAP programs 30 percent of HH have successfully established and operating kitchen gardens with water storage	Over 70 percent of average Nauruan diet sourced from locally produced food Over 70 percent of HH successfully growing and producing root crops 20 percent of agricultural food sale in the market sourced from domestic food production Over 70% of HH have successfully established and operating kitchen gardens with water storage	Department of Agriculture
Promote production of value added forestry and agro-forestry products for domestic consumption	A forest management plan developed	Forest management plan implemented starting with reforestation of the mined areas	Reforestation of the mined areas 15 percent completed Commercially viable forestry and agro-forestry products identified and associated business plans developed	Departments of Agriculture and Environment and NRC
Promote commercially viable piggeries, duck and poultry (egg production) and agricultural businesses	At least one new piggery or poultry farm business established and operating commercially in each district community	The community in each district has an average of 2 new piggery or poultry businesses established and operating commercially 15 percent of local demand for pork and poultry products met from local production	Over 70 per cent of local demand for pork and poultry products met from local production	Department of Agriculture
Set up a resource centre on agricultural and livestock production	A resource centre on agricultural and livestock production established providing technical advice, pamphlets, manuals to farmers and community	Over 50 percent of farmers regularly used the resource centre	Over 75 percent of farmers regularly used the resource centre	Department of Agriculture
